Google Chrome

Step 1: Click the three-dot *Customize and Control* icon located in the top right corner.

Step 2: Select *Settings* in the drop-down menu.

Step 3: A separate *Settings* tab opens in Chrome. Click *Privacy and Security* listed on the left to expand your options.

Step 4: Select Clear Browsing Data shown on the right.

Step 5: An in-browser pop-up appears with the *Basic* tab loaded by default. Here, you can delete your browsing history, cached images, and cookies, along with other site data.

Step 6: When ready, click the blue *Clear Data* button. If your Google account is synced to other devices, this step will clear cookies on those devices as well.

Mozilla Firefox

Step 1: Click on the three-line *Menu* icon located in the top right corner.

Step 2: Select Options on the drop-down menu.

Step 2: The General category loads by default. Select Privacy & Security listed on the left.

Step 3: Scroll down on the right to find *Cookies and Site Data*. Click the *Clear Data* button.
